Subject Index

Grafts—Continued

- porcine aortic valves as replacements for human heart valves (Zuhdi et al.), 479
- recovery of function of reimplanted lung (Smith et al.), 42
- sequential coronary artery anastomoses (Loop), EDITORIAL, 637
- spiral composite vein, replacement of superior vena cava with (Chiu et al.), 555
- triple bypass, for treatment of severe triple coronary vessel disease (Cheanvechai et al.), 545

Heart

arrhythmia

- improved operation for definitive treatment of Wolff-Parkinson-White syndrome (Sealy et al.), 107
- uncontrolled tachycardia in atrial fibrillation, management by surgical ligation of A-V bundle and pacemaker (Gooch et al.), CASE REPORT, 181

- atrium, right, and superior vena cava, foreign bodies in, removal without thoracotomy (Smithwick et al.), HOW TO DO IT, 197

congenital heart disease

- atrial baffle operation for transposition of great arteries (Balderman et al.), 114
- atrial septal defect with communication through coronary sinus (Allmendinger et al.), CASE REPORT, 193
- atrial septal defect with termination of left superior vena cava in left atrium and absent coronary sinus (Helseth and Peterson), CASE REPORT, 186
- cardiac performance in infants after repair of total anomalous pulmonary venous connection (Parr et al.), 561
- cor triatriatum (Carpena et al.), 325
- corrected transposition and associated anomalies, surgical treatment (Bonfils-Roberts et al.), CURRENT REVIEW, 200
- cyanotic, ligation of subclavian-to-pulmonary artery shunt during operation for (Sade et al.), HOW TO DO IT, 407
- deep hypothermia in cardiovascular surgery (Rittenhouse et al.), CURRENT REVIEW, 63
- intracardiac surgery with extracorporeal circulation in infants (Bonchek et al.), CURRENT REVIEW, 280
- palative and reparative procedures for transposition of great arteries (Trusler and Mustard), CURRENT REVIEW, 410
- supravalvular tricuspid stenosis resulting from persistent right sinus venosus valve (Nakano et al.), CASE REPORT, 591
- transposition of great arteries (Doty and Ehrenhaft), CORRESPONDENCE, 210; (Cooley), CORRESPONDENCE, 211
- ventricular septal defect and aortic insufficiency (Sanfelippo et al.), 215

coronary arteries

- aortocoronary bypass in treatment of left main coronary artery stenosis (Alford et al.), 247
- cardiac surgery in community hospital (Bricker and Dalton), 450
- direct coronary artery surgery for one year without operative death (Tector and McNabb), 345
- improved coronary vein graft patency rates with side-to-side anastomoses (Sewell), 538
- myocardial resection and coronary artery bypass for left ventricular failure following myocardial infarction, results in patients with ejection fraction of 40% or less (Lefemine et al.), 1
- sequential coronary artery anastomoses (Loop), EDITORIAL, 637
- technique of internal mammary-to-coronary artery bypass (Mills and Ochsner), 237
- triple bypass graft for treatment of severe triple coronary vessel disease (Cheanvechai et al.), 545
- coronary sinus, absent, and left atrium, atrial septal defect and termination of left superior vena cava in (Helseth and Peterson), CASE REPORT, 186
- effects of morphine anesthesia on blood requirements during and after valve replacement and coronary artery bypass grafting (Stanley et al.), 368

myocardium

- local cardiac hypothermia for myocardial protection (Cohn and Collins), 135
- myocardial infarction shock treated by intraaortic balloon counterpulsation, physiological principles, clinical results, and device safety (Weber and Janicki), COLLECTIVE REVIEW, 602
- myocardial resection and coronary artery bypass for left ventricular failure following myocardial infarction, results in patients with ejection fraction of 40% or less (Lefemine et al.), 1
- permanent experimental model for reversible myocardial anoxia (Lajos et al.), 20
- pericardium
 - role of surgery in tuberculous pericarditis (Carson et al.), 163
- superior approach for operative decompression of left side of (Siderys), HOW TO DO IT, 277
- wounded, management of (Trinkle et al.), 230

Heart valves

aortic

- insufficiency and ventricular septal defect (Sanfelippo et al.), 215
